## Greetings from **Search Foundation** Chandrapur!

We made a modest beginning in 2002, with many programs in Chandrapur district. In 2002, we initiated the Many Rural Educational awareness events. In 2003-05, **SEARCH FOUNDATION** operated many programs in different villages in Near Chandrapur & Vidarbha. This journey of decades with ups and downs, has been a huge social learning experience.

We are now at a cusp of growth to take the next step from providing facilities and services to providing long-term solutions. For example, at the Public Healthcare Centre in Chandrapur like OPD and diagnostic facilities are provided to poor patients from surrounding villages at reasonable or free of cost. It is time to adopt an integrated approach towards health to include sanitation, menstrual hygiene, nutrition practice and preventive healthcare so that the overall health of the villagers improves. Similarly, our other programs addressing issues of Healthcare Awareness, Education development, skill development, vocational Training programme, Child and women's Development, menstrual hygiene workshops, Agricultural transformation, Consumer Protection Awareness Programme, Entrepreneurship management Programme, social entrepreneurship program will need to be suitably enhanced.

A set of village's benefits from our health, education, sports for development, agricultural transformation, social entrepreneurship programs, Vocational training and skill development programs in Chandrapur & Maharashtra state. During last many years, we have developed a rapport with the beneficiaries in these villages. We need to convert the goodwill for proactive engagement of these beneficiaries in issues such as drinking water, sanitation, hygiene, etc. The involvement of the residents of these villages will be essential for implementing the related programs. These initiatives will be a major step towards creating successful and replicable models for development and growth.

To this end, we need to bring about a change in the way we do things. To begin with, we need to change the way we collect data. At present, all information of our day to day activities is captured in a daily report so that we can maintain a high level of transparency and accountability. We now need to augment this exercise with continuous system of impact assessment and course correction. For our new initiatives we need to upgrade our governance as well as the skills of our Coordinators and Social Workers. We have always been proud of the fact that individual donors are our main support. We want to bring more value to their unstinted support. We also hope to garner the support of more institutional donors in the future. We could also tap the new CSR initiative.

In all these decades, we have been unwavering in our mission to assist and support the poor and destitute. We hope that with the proposed changes in the future we can make real difference in the lives of our fellow citizens from weaker sections. We are fortunate that whenever we are in doubt, we have a talisman the Father of the Nation gave us. Our team would like to thank you for taking the time to engage with **SEARCH FOUNDATION**.

# Who we are

## About us:

**Search Foundation** aims to help every child learn well. From 2002 to 2019, nineteen years, we have been guided by our mission - Every Child in School & Learning Well. To work towards this goal, we develop and implement innovative, high impact, low cost and scalable programs to address significant gaps in India's education system. For the last seventeen years, we have also been working with youth with the goal of enabling every young person to reach their potential. Beginning in Chandrapur Districts in 2002, we work has evolved considerably over time across age groups and contexts.

Our vocational training programs cater to underprivileged youth and prepare them for entry-level jobs in the organized sector. We also work with vulnerable children to bring them into the education and safety net. The fact that Search Foundation approach is now being adapted to a variety of international contexts with similar learning challenges is a testament to the efficacy of our interventions. Overall, the different strands of Search Foundation work come together to transform individuals and communities, schools and systems. It is our conviction that when schools and communities support children and families, children learn well and thrive.

The objective of this Skill development is to enable a large number of Indian youth to take up industry-relevant skill training that will help them in securing a better livelihood.

### **3) Personality Development:**

On the occasion of 12<sup>th</sup> Jan youth day we celebrate personality building / Development programme. Personality development is the relatively enduring pattern of the thoughts, feelings, and behaviors that distinguish individuals from one another. The dominant view in the field of personality psychology today holds that personality emerges early and continues to change in meaningful ways throughout the lifespan for this purpose we continue organized personality development program for our school and college girls and boys for their future development.

### **4) Healthcare and sanitation Awareness Programme in rural areas:**

Health is most important factor in our life it may be mental health, physical health and social health. Our foundation are doing best in this field for this we conducts many health awareness camps, seminars and workshops. The prevention of Water born diseases preventive measures to be taken is most essential. With this objectives, we have arrange awareness campaign for the proper disposal of solid and liquid waste in which 500 men and women from many villages of Chandrapur Districts participated.

The organization has identified the basic need of human being, about the education, healthcare, environment, agriculture, health, nutrition, unemployment and tried to solve through the counseling, conducting seminars, providing skill training etc.

**SEARCH FOUNDATION** has been in existence for just over three years to deal with Healthcare, Education, Consumer Protection, supporting emerging marginal farmers, landless people, especially in the land reform program as the region of Chandrapur Districts. A number of land reform farms were on the brink of collapse due a number of reasons including lack of farming skills by the new owners and over-indebtedness.

The period during which the **SEARCH FOUNDATION** was established and marked by unprecedented food price hikes and a world economy in recession. The **SEARCH FOUNDATION** recorded some remarkable success during its first two years of existence, notwithstanding numerous challenges that were faced by the entity.

The **SEARCH FOUNDATION** has crafted a new strategy as a response to the needs of sector, having done an environmental scan and identified the niche that is intents satisfying. It should be noted that this strategy has been crafted by **SEARCH FOUNDATION**. It is in this regard that I would like to express my gratitude and appreciation to the **SEARCH FOUNDATION** management and the staff at large. I believe that the new strategic direction will position the **SEARCH FOUNDATION** as an expert organization in the agribusiness par excellence in the state of Maharashtra.
